Summary

Computer Engineering graduate (2026) from Konya Technical University. I built a live rental platform with Next.js, Node.js and PostgreSQL and two Flutter apps, working on real product problems such as payment integrity, concurrency and privacy.

Education

Konya Technical University — Bachelor's • GPA: 3.16 / 4.00
Computer Engineering — Konya, Türkiye • 2022 – 2026

Konya Technical University — Associate Degree • GPA: 3.42 / 4.00
Computer Programming — Konya, Türkiye • 2020 – 2022

Projects

RentIt — P2P Item Rental Platform — October 2025 – May 2026
A live platform where users rent items to each other. Built with Next.js, Node.js and PostgreSQL; features include payments with Stripe, a wallet, real-time messaging with Socket.io, and location-based listing search.

NeuroVision — Brain Tumor Classification from MRI — March 2025 – May 2025
A deep learning model that classifies MRI images into four classes (three tumor types and healthy). I applied transfer learning with ResNet50 and ResNet101 and presented the results in a Django-based web interface.

KadroBul — Public Job Listing Matching App — September 2026 – Present
A Flutter mobile app that matches public-sector job listings to the user's profile. I used Supabase, Cloudflare Workers and an on-device Drift database; not published due to a KVKK (Turkish personal data protection law) assessment.

PDF Tools — Offline PDF Tool (Android) — January 2026
PDF merging, splitting, page deletion and document scanning with ML Kit; all operations run on the device.

Experience

RBM Robotics — July 2026 – September 2026
Intern

Inter Bilgisayar — June 2020 – September 2022
Technical Service & Support Assistant

Skills

Programming Languages
C#, JavaScript, TypeScript, Python, Dart, SQL, C, Java

Backend and Databases
Node.js, Express.js, PostgreSQL, PostGIS, Supabase, REST API, Socket.io, OAuth 2.0, Django, JWT

Frontend and Mobile
Next.js, React, Tailwind CSS, Flutter

AI and ML
Deep Learning, CNN, Transfer Learning, TensorFlow, NumPy, Pandas, scikit-learn, OpenCV, Keras

Tools
Git, GitHub, Claude, GitHub Copilot, OpenAI Codex, Render, Vercel, Cloudflare, Stripe API, Jest

Certifications

Python and TensorFlow for Data Science — March 2026
Dart Programming Language — June 2025
Introduction to Deep Learning — February 2025

Languages

Turkish
Native

English
(Technical documentation reading)
